**Subject** : Acknowledge and support of candidacy for Malick Gaye's nomination for HIC President

Dear Barry Pinsky and HIC Electoral Committee,

Following your e-mail of October 1st, regarding the subject, I confirm acceptance of Malick Gaye been nominated.

The entire Enda Rup organization acknowledge and support his candidacy for HIC President Election.

Enda Rup (Environment and Development Action Urban Participatory Relay) exists since 1983 and became a legal organization based in Burkina Faso, Cameroun and Senegal after ENDA TM constitutional reform in 2012 (during Rio+20, including debate at People Summit location site).

The last 20 years, in its mission it has brought a critical shift in thinking about how to address urban problems. This is to recognize that urban problems cannot be addressed without drawing on local knowledge, innovation and capacity to organize. This is also to recognize that all cities are the result of an enormous range of investments of capital, expertise and time by individuals, households, communities and NGOs, as well as by private enterprises, investors and government agencies. Encourage and support the efforts of all these actors meanly communities and you have a powerful force for addressing urban problems.

Enda Rup has long been undertaking pioneering research, action and formation around the issue of cities built "from bottom up". It describes Enda's own experience in setting up new partnerships between municipal authorities, CSOs and CBOs for right to the cities, its popular economy, land and housing.

I wish you a successful electoral process and best outcomes for Malick Gaye candidacy.

Best regards

Mrs Brigitte GUEYE  
Assistant Human Resources - Enda Rup
