ASSOAL is an organization with special consultative status with ECOSOC (UN)

Who are we?

Created in 1998, ASSOAL is a social organization supporting local actors and development processes.

Issues and challenges?

Some constraints of context underpin our action:

- Improved governance, including financial governance, local democracy, and the culture of rights, mainly Economic, Social and Cultural Rights (ESCR):
  - In a context of low culture of citizenship, accountability, transparency and social responsibility;
  - The territorialization of public policies:
    - In a context of centralization, low integration of socio-cultural diversity, low sensitivity to climate change and ESCR;
  - Equal access to basic social services:
    - In a context of weak fiscal culture and weak public policy effectiveness.

Three reasons to engage with us:

- ASSOAL is:
  - A platform of ideas and proposals to rebuild public policies, local governance and decentralisation on citizen engagement, accountability, ownership of rights and social responsibility;
  - A citizen campaign to mobilize for the territorialization of public policies of social housing;
  - An innovation laboratory to test alternative models of governance, sustainable and climate sensitive development.

What is our common vision?

By 2035 ASSOAL aims to be recognized nationally and internationally as a leading advisory partner in promoting governance and sustainable development sensitive to climate and to economic and socio-cultural rights.
Key mission
Contributing to the territorialization of development policies through three-dimensional multi-stakeholder partnerships that prioritize participation, citizen engagement, respect for citizens’ economic and socio-cultural rights and the fight against climate change.

What are the goals?
ASSOAL’s strategic objective 2019-2028 is to promote the Participatory Budget (PB) as a mode of governance sensitive to climate change at the local level that can strengthen the realization of the economic and socio-cultural rights of all citizens.

Some achievements
- PB is implemented in the municipalities of 35 African countries and 95 municipalities in Cameroon.
- PB taken into account in the local authority code in Cameroon (Article 386).
- Citizens’ proposals for housing and social housing included in the draft of the national housing policy.
- Several thousand households protected and retaining their land holdings.
- Several alternative models of social housing demonstrated with more than 20 housing co-operatives created in Cameroon.
- An African Network of Inhabitants’ Organizations (ANIO), an Inter-African Alliance for Participatory Budgeting (IAAB-PB), a Cameroonian Alliance for Participatory Budgeting and Local Finance (CAPBF-LF), a CSO Platform on ESCRs, a Mutuels and Housing Co-operatives Promoters Platform (MHCP), several organizations and federations of grassroot organizations and evictions victims;
- Many basic services improved and maintained in the neighbourhoods and villages of several municipalities in Cameroon (drinking water, health centres, schools, etc.);
- Etc.
